**EGF Working Group "Sensing in grassland and forage science and practice"**  
**Sunday 17th June 2018 from 1 pm to 4:30 pm**  
**Location: Rochestown Park Hotel (EGF Conference Venue)**  
**Theme: The benefits of sensors in grassland science**  
**Cost: €20**

The EGF Working Group "Sensing in grassland and forage science and practice" will hold a workshop on Sunday 17<sup>th</sup> June 2018 at the EGF 2018 Conference Venue, Rochestown Park Hotel, from 1 pm to 4:30 pm. The title of the work shop is "The benefits of sensors in grassland science". The workshop will address all possible sensor systems (e.g. spectroscopy, photography, laser, etc.) and focus on their benefits for research in grasslands and other vegetation for forage use.

After an introductory keynote paper, it is planned that participants will work in small sub-groups on selected topics, which will be identified by WG members prior to the workshop. Part of the discussions will also be devoted to goals and expectations related to this recently established WG.

For further information please contact Michael Wachendorf ([mwach@uni-kassel.de](mailto:mwach@uni-kassel.de)).

You can register for the Working Group meeting by Clicking on the Register option on the EGF 2018 website ([www.egf2018.com](http://www.egf2018.com)). The meeting is open to everyone.

**Working Group "Grazing"**  
**Sunday 17th June 2018 (Depart 08:00 – return 17:00)**  
**Location: Teagasc, Moorepark (transport by bus will be arranged from EGF 2018 Conference Venue (Rochestown Park Hotel) to Moorepark)**  
**Theme: Maximising grazing in ruminant production systems**  
**Cost: €50**

The 6th meeting of the EGF Working Group "Grazing" will provide a mixture of theory and practise. The meeting will take place at Moorepark, where we will experience in-field the infrastructure, pre- and post-grazing covers, tools, etc. Furthermore, in a limited number of short presentations and discussion sessions we will discuss how to maximise grazing in different ruminant production systems. The aim of maximising grazing is to increase profit, in terms of money or in terms of ecosystem services.

If you would like to contribute with a short presentation, please contact the chair of the Working Group "Grazing" Agnes van den Pol ([agnes.vandenpol@wur.nl](mailto:agnes.vandenpol@wur.nl)).

You can register for the Working Group meeting by Clicking on the Register option on the EGF 2018 website ([www.egf2018.com](http://www.egf2018.com)). The meeting is open to everyone.
